

MINIMALLY INVASIVE SURGERY MASTER CLASS

Laparoscopic Bariatric and Hernia surgery

“

Human knowledge is never contained in one person. It grows from the relationships we create between each other and the world, and still it is never complete.

– Paul Kalanithi

Kostrzyn nad Odrą | April 17-18, 2023

WELCOME

Our master class program on laparoscopic bariatric and hernia surgery is designed for surgical professionals seeking to expand their knowledge and expertise in advanced techniques.

You'll gain comprehensive knowledge and practical skills, including patient selection, preoperative preparation, intraoperative techniques, postoperative management, and long-term follow-up.

OUR AIM

This master class aims to facilitate experience sharing in bariatric and hernia surgery by bringing surgeons together for open discussions.

It provides valuable insights into the best practices in these surgical techniques and enables participants to build a professional community while networking.

“
You can't ever reach perfection, but you can believe in an asymptote toward which you are ceaselessly striving.
– Paul Kalanithi
”
